EDUCATION

B.Tech Information Technology – NIT Warangal
Expected: June 2026 | CGPA: 7.9/10

SKILLS

Python, Java, Machine Learning (Scikit-learn), TensorFlow, SQL, HTML/CSS, React JS

EXPERIENCE

Data Science Intern – Analytics Corp (Summer 2024, 2 months)

- Built a churn prediction model using Random Forest; 84% accuracy
- Created dashboards in Power BI for business stakeholders
- Wrote data cleaning scripts in Python/Pandas

PROJECTS

House Price Predictor

- Linear regression + XGBoost model trained on Kaggle dataset
- Deployed with Flask REST API
- Streamlit frontend for user input

Twitter Sentiment Analysis

- LSTM model with 78% accuracy on twitter dataset
- Used NLTK for preprocessing

College Recommendation System (Final Year Project - Ongoing)

- Building recommendation engine using collaborative filtering
- Currently exploring LangChain basics for a Q&A feature

CERTIFICATIONS

- Coursera: Machine Learning Specialization (Andrew Ng)
- Google Data Analytics Certificate

INTERESTS

AI/ML, Data Science, Web Development, Open Source
